

Office of Inspector General
U.S. House of Representatives
Washington, DC 20515-9990

MEMORANDUM

TO: Alan M. Hantman
Architect of the Capitol

FROM: 
Steven A. McNamara
Inspector General

DATE: April 2, 2003

SUBJECT: Advisory Report - Fire Protection Improvements Needed Within Capitol Power Plant (Report No. 03-AOC-01)

This is our final report on the status of fire protection within the Capitol Power Plant. The objectives of this review were to determine whether the Architect of the Capitol (AOC) has effectively complied with the applicable fire codes and regulations, and has taken adequate steps to ensure the safety of Capitol Power Plant occupants during a fire emergency. In this report, we confirmed the conditions reported in the Office of Compliance's (OOC) July 2001 report. Furthermore, we concluded that in addition to these deficiencies, there are other fire protection systems, programs, and procedures that require additional attention, and we made specific recommendations for corrective actions. **This report, which includes a discussion of overall issues and recommendations, is confidential and should not be released to anyone other than auditee management, except by approval of the House Office of Inspector General.**

In response to our November 21, 2002 draft report, your office concurred with our finding and recommendations. The December 24, 2002 management response is incorporated in this final report and included in its entirety as an appendix. Generally, the Office of Inspector General agrees with the AOC's corrective actions taken and planned. Furthermore, the milestones dates provided appear to be reasonable for implementing the corrective actions proposed.

We appreciate the courtesy and cooperation extended to us by your staff. If you have any questions or require additional information regarding this report, please call Christian Hendricks or me at (202) 226-1250.
